

PRO - Paint Remover

Description:

Paint Remover is a heavy-duty viscous Coating Remover. It's based on methylene chloride with some other solvents and surfactants to improve penetration of stripper which enable the painter to remove all types of coating like high bake Polyesters, Acrylics, Epoxy, 2K Paint system and Cellulose based system. Paint Remover is non-flammable and quick acting product without affecting the bared surfaces.

Product preparation - Application

It is strongly recommended to use appropriate personal protection equipment during application to avoid respiratory, skin and eye irritation.

Spread a heavy layer evenly over the surface.

N.B: Scratching or sanding the finish will often speed up the stripping action.

Repeat the application if necessary.

Keep lid closed between applications.

Leave for approximately 10 -15 minutes until paint or coating has softened.

Remove Paint with metal scraper, Steel wool can be used in difficult areas.

Wipe the scraped surface with water to remove any excess remover.

Allow the surface to dry.

Shelf life: 6 Months in good storing conditions (25°C, 60% humidity). Applying outside this range may impact finish.

Remarks
